I want you,  
Do you want me to,  
I have one question.  
Can I help you,  
Now watch me, what I do  
Now thank you for coming through my drive-thru  
Oh!

Julian Casablancas (The Strokes):

When you're haunted by the demons that'll never let  
you rest.  
Not shy in front of crowds, but shy in front of just one  
guest  
Not dumb enough to win at their game  
But not smart enough to dumb it down, and take it  
away  
It's black & white like space at night,  
If you wanna be like us you better work every night

Santogold:

One question, what's your impression?  
No we don't walk like man, I have a presence  
So make your move real slow my mind's a weapon  
I said just move in slow no second guessing  
I find your offers so adolescent  
I may look young but your game is prepubescent  
So watch my feet I'm known for my quick steppin  
You wanna keep up gotta show me somethin'

Pharrell:

Oh

Julian:

Look at all the leaders hanging in the playground,  
Always beating up the weaker ones  
(Going off too you)  
The answer to the question, and another mission,  
Is a word that I have never...

(Going off to you)

You think happiness is watching tv all night long.  
You dig the job of dealing over people in this song  
Well I am here to change your world, I need credit  
when I'm done.

Santogold:

You wonder how do I aspire, caz the world is spinning  
'round inside my palm.  
Don't hate me if you know they got you wired.  
You better show how search can be all over now.  
Caz we all wanna dance, just wanna dance, dance.  
We wanna dance, just wanna dance.(2x)

Julian:

It's summer  
In the city  
It's summer  
In the city  
I want so bad to dance with you, don't waste your time  
with one or two.  
The time is right, the summer night, you fall in love at  
every light.

Santogold:

You wonder how do I aspire, caz the world is spinning  
'round outside my palm.  
Don't hate me if you know they got you wired.  
You better show how search can be all over now  
Caz we all wanna dance, just wanna dance, dance.  
We wanna dance, just wanna dance.(2x)
