

## Julian Plenti "Fun That We Have"

Visit "[Fun That We Have](#)" on [MotoLyrics.com](#)

With all the fun that we have, we have come far  
With all the fun that we have, we have come far  
With all the fun that we have, we have come far  
With all the fun that we have, we have come so far

You came along with your shaking knees  
And you came with fire  
I wasn't reading with my telekinesis

With all the fun that we have, we have come far  
With all the fun that we have, we have come far  
With all the fun that we have, we have come far  
With all the fun that we have, we have come so far

You came along with your shaking knees  
And you came with fire  
I wasn't reading with my telekinesis  
And you came and requires  
But I was to save you when with your repeatness

Keep strolling my  
Keep strolling my  
Keep strolling my ways

Keep strolling, my ways  
Keep strolling, my ways  
Keep strolling, my ways  
Keep strolling, my ways  
Keep strolling, my ways
