On the esplanade  
Down by the sea  
Baby, watch my back  
Think somebody's following me

I feel overcome  
With trying to play it dead  
Feel safe that way  
Is it better than displaying instead?

It was a big slip for me  
To roll up my golden life  
She should have saved, saved my energy

I'm awake today  
So nice to see the window  
Wash my dreams away  
I prop myself up on my pillow

Been through shaky times  
But I'm glad you found your way  
There was too much panic then  
From here on it'll be straight all the way

It was a big slip for me  
To roll up my golden life  
She should have saved, saved my energy

Changing with time  
I can wait for the sign  
Is this right?

They choose your side  
But the day brings the  
Pride of the light

Oh with peace comes at night  
I will never break from the shadow  
Inside, to be blinded

Changing with time  
I can wait for the sign

Is this right?  
Is this right?
