

Julian Plenti "Unwind"

Visit "[Unwind](#)" on MotoLyrics.com

I see your face and I let you own me
I see your face and I let you unwind
I see your face and I let you own me
I see your face, I won't let you unwind
I see your face and I let you own me
I see your face and I let you unwind
I see your face and I let you own me
I feel you shaking, know a pleasure of my design
I see your face and I let you own me
I can't replace you, wanna give us another try?
I see your face and I let you own me
I feel you shake, I won't let you unwind

I will make time just for you
I will make for you now
I will make time

Patience, patience, it's safer for you now

I see your face and I let you own me
I see your face and I let you unwind
I see your face and I let you own me
Don't hesitate to know the pleasure of my design
I see your face and I let you own me
I can't replace you, wanna give us another try?
I see your face and I let you own me
I feel you shake, I won't let you unwind
