Scary breeders
They have come
With their sons and daughters

One by one
Mean and dumb
Have another

They got cable
And ac
And cellular technology

Scary breeders
They run me out of town
Creepy breeders

When the baby feeds
And the implant leaks

It's a screaming monster

Shut it up
Put some pepsi
In the baby's bottle

Or hit it harder
Scary breeders
They run me out of town
Creepy breeders

Those breeders
Strange breeders
Dog breeders
Those breeders
