There's nothing worse than a sad man alone  
Who came from nothing and says he's done  
A hotel is just a temporary home  
Go into the light now

I picked you up cause maybe I'm what you need  
You didn't know it but you were saving me too  
Let's make some music and talk everything through  
I picked you up cause I needed you

You fell in with a guy and a girl  
Over coffee your story made her cry  
You stopped looking, you stopped hoping  
You stopped sleeping very well  
But don't say you didn't try

I picked you up cause baby I'm what you need  
Maybe you didn't know it but you were saving me too  
Let's make some music and talk everything through  
I picked you up cause I needed you

You walked out the door and down the street  
And you fell on your phone  
I was suddenly there  
Out of the blue and into the red I saw your face  
And I knew it

I picked you up cause maybe I'm what you need  
You didn't know it but you were saving me too  
Let's make some music and talk everything through  
I picked you up cause I needed you

I know who you are  
Cause I know who I am  
And my friend I'm taking you home with me  
Where you can finally sleep  
I picked you up cause baby I'm what you need  
Maybe you didn't know it but you were saving me too  
Let's make some music and talk everything through  
I picked you up cause I needed you
