It's on video  
Baby there's no way you can lie your way out of this  
one  
It's on video  
You're looking so transparent  
You got no skill at seduction, no  
All the money you've bought  
And the money you won  
And the money you've got  
And the money you love's not enough  
It's on video  
Now all the bleeding hearts have finally got their proof,  
yeah  
It's on video  
Just cause you say you're a good man doesn't make  
it true, no  
All the money you've bought  
And the money you won  
And the money you've got  
And the money you love's not enough  
It's on video  
It's on video  
All the favors you trade with the cops  
And all the people you've paid off  
All the money you've bought  
And the money you won  
All the money you've got  
And the money you love  
All the money you've bought  
And the money you won  
All the money you've got  
And the money you love's not enough
