What is wrong?
Why can't you sleep?
What is your trouble?
Don't you miss your dreams?

Can't you find a reason to keep believing?
What is wrong? You need to eat
Didn't you hear me? I swore, I'd never leave
Can't you find a reason to keep believing?

What tears you up and breaks you down?
When I wake, will you be gone?

You're disappearing, slipping away
Why can't this be as easy as it is to breathe?
Can't you find a reason to keep believing?
I don't need a reason to keep believing

What is wrong?
Why can't you sleep?
Why are you still doubting?
I swore, I'd never leave
