[VERSE 1]

There were moments
That I wanted you around
Moments I wanted you
To pick me off the ground
Was is something I said
I did or did not do
A detail left out
Of the list of my being with you

[REFRAIN]

Do you know coz I don't understand
Can you tell me coz I can't comprehend
Always thought that you were on my side
Now you're walking away
Walking away
Leaving me behind?

[CHORUS]

Now all I see are empty chairs I have to fill
Makes me think about all what you said
What lies ahead
Am I capable of living my life still

Now that you're not by my side
And I remembered
That was your empty chair to fill

[VERSE 2]

Here I am
With my final role to play
Left to finish what we
Started on that fateful day
There I was your girl
Your star your best friend
Now empty handed
Are you telling me
This is how the story ends?

[BRIDGE]

Iâ€™m telling you things
You shouldnâ€™t know right from the start
When all I ever asked of you
Was to be there
I couldâ€™ve swallowed all my pride
For all I care
But you kept taking more than I could give
So go ahead walk out the door
