1.

can you hear the echo?  
footsteps down the hall  
always sounds so lonely  
as their walking away  
the man in the mirror  
looks tired and worn  
another deja vu day  
and your heart is torn

chorus 1:

I'm in this melancholic mood  
that never does me any good  
it gets worse when I'm tired  
it's a habit I acquired

chorus 2:

every little part of me  
is missing you now  
every little part of you  
no matter where you are I do  
this body aches  
to be kissing you now  
every little part of you  
deep down to the heart of you  
and in the middle of the night  
you should hear my spirit cry  
oh I, I'm still missing  
every little part of you

2.

remember when you told me  
how pain never last  
we can win tomorrow  
by facing the past  
so how come today then  
all that remains  
each and every memory  
is a heart full of pain

chorus 1+2

bridge:

and when I feel the morning light  
I reach for you to hold you tight  
how I wish I could feel you once more  
see the sun rise on your face  
but deep down in my heart I know  
that maybe I should let you go  
but you are a hard habit to break

chorus 2.
