We've been talking about it  
Analyzed it many nights  
We've been through the fire, oh, so many times  
And I feel so close, now I just can't doubt it  
It was always you, always you  
And in me you've seen a million faces  
All they want is you  
I'm running backwards over the hills  
Never more me, stuck into the ground  
Over the hills  
And take it all  
I'm running backwards over the hills  
Never more me, standing all alone  
Over the hills  
I'll take it all  
You've been waiting for it  
Known about it all the time  
Now I see you've been a step ahead of me  
And I love you for it, baby  
Just can't hide it  
It was always you, always you  
And with you I'll have the things I wanted  
I'm gonna see this through  
I'm running backwards over the hills  
Never more me, stuck into the ground  
Over the hills  
And take it all  
I'm running backwards over the hills  
Never more me, standing all alone  
Over the hills  
I'll take it all  
- repeats to end -
