"Shine A Little Love"

Visit "[Shine A Little Love](#)" on MotoLyrics.com

You took me to a neat café
Quite expensive I would say
You ordered champagne and caviar
You told me 'bout your aeroplane
And your castle down in Spain
- Still I don't know who you are

And if I should, let you in
You gotta!

Shine a little love on me
Baby let the sunshine hit the sea
Show me you mean it
'Cause every little word you say
Every little role you play for me
I wanna feel it

I haven't been around the world
'Cause I am just a small town girl
I know what love is about
What I need to hear from you
Is something new and something true
We're getting close and yet we're still too far

Life might turn you around
Let you see things
That you never thought you'll ever see
Give love a whole new sound
For you and for me
