Here I am calling you again
Tongue tied, eager and impatient
As I live everytime we talk
And here I am in a distant land
I concentrate on my misbehaving
Cuz I need this time...

(chorus)

Tell me how you're feelin' today
Sometimes I take a bite of the apple
And sometimes I lose my way
And that's my everything
I've got to get you into my everything
I've got to figure myself out first

I know it's hard to understand
I do my dirty work with clean hands
I don't think I'll see you until this all ends
And I hope you still want me by then

Here I am in your arms again
With a thousand more miles etched on my face
And I've lived every single one

(repeat chorus)

I hope you stil want me
'Cause I, 'cause I, I know I still want you

(repeat chorus)
