"Good Thing Going"

Visit "[Good Thing Going](#)" on MotoLyrics.com

We've got a good thing going so we've got to protect it
They say people lose it when they least expect it
Baby I know it's true-But I don't worry 'bout us
And all the friends we thought were gonna make it
forever
They all ran into trouble and now they're not together
Baby I know it's sad-but I don't worry 'bout us
'Cause how could anybody turn my head
When my heart is forever lost to you
How could I fall into another's arms
When I've fallen so deep into a love so true
We've got a good thing going so we can't get lazy
Got to keep working at it, but then
You know I'm crazy for you
It's not so hard-so I don't worry about us
How could anybody turn my head
When my heart's forever lost to you
How could I fall into another's arms
When I've fallen so deep into a love so true
We've got a good thing going and we've got to protect
it
Because there's nothing better, baby-don't you forget it
I know I never will, so I don't worry 'bout us
Oh no-baby I never will-I don't worry 'bout us
