I Will Be Alright

I remember the hills covered in grass everywhere
And I remember hearing you sing with a flower in your
hair

I never saw a blue sky as deep as on that day
I never felt a love as deep as on that day

And I will be alright
For the rest of my life
And I will be alright
As long as I'm with you

And I remember what they said as you lay there
motionless
They said don't let it get to your head
But how could I forget the love in your eye
As I see it now so often
They'll never know the part of my that pried your steel
door open to set you free
Your freedom through me
And I'll unlock your door
And I'll throw away the key

We are free (3x)

And I will be alright
For the rest of my life
And I will be alright
As long as I'm with you
Now its time to go
Time to hide you away
Where they'll never find you
And I'll return to the way they think I am
But they'll never understand
We're more then they could ever be
And I won't let them take you from me

Cause we are free (2x)

We are free
You and me

And I will be alright
For the rest of my life
And I will be alright
As long as I'm with you

Oh, as long as I'm with you

They'll never understand the kind of man that could
take this madness
