Turned Blue

-----Caroline's Spine

-----An American Werewolf in Paris Soundtrack

Let me tell you something about myself
I think i'll tell you and nobody else
Because deep down inside i know you're listening...

I think about her every night
I watch her move beneath the moonlight
She was the only one i could turn to, turn to
And i'll never turn to anyone else
So now you know
Just how i loved her so
I did everything she told me

You see, i'm a simple man with simple dreams
I'm telling you things are not what they seem
Because deep down inside i know you're listening...

I wanted nothing but to make her feel
A life with me could be so surreal
She told me not to let go until she turned blue, turned
blue
And i'll never turn to anyone else

So now you know
Just how i loved her so
Oh i didn't want to go away
I did anything she told me
I did everything she told me

(Did everything...everything...everything...)

I know she up there laughing at me
Oh she was the only one, she was
So now you know
Just how i loved her so
She wasn't supposed to go away
I did anything she told me
I did everything she told me

So let me tell you something about myself
I think i'll tell you and nobody else
Because deep down inside i know you're listening

She decided her fate that night
Shut her eyes for the last time
She's the only one
That could make you understand
