Is it true what they say about Julie?  
There she is, let's ask her.  
Julie, did you really go out with an alien?  
Uh huh  
What was it like?  
Real different  
By the way, where'd you meet him?  
I was nude sunbathing on my patio, and he was  
checking me out from his UFO  
Guess he couldn't take it 'cause he lost his cool,  
crash landed in my swimming pool  
ooh neat  
So he beams over too he starts licking his lips, stroking  
his antenna and wiggling his hips  
I'm no Albert Einstein but I'm not that dumb, I know  
lust no matter what planet it's from  
He said earth girls, earth girls are easy, earth girls,  
know how to please me  
Earth girls, earth girls are (easy)  
Was he cute?  
No way, definitely uncute  
Total grossarama, slick as a slug, with a shake-and-  
bake complexion and eyes like a bug  
Wavy on weird I wanted outta there quick, he was a  
cross between Flipper and Alan Thick  
Ooh  
I ran in the house, I locked every lock, I was not gonna  
party with some horny little Spock  
All of a sudden I screamed in horror, he was groping  
my leg through the doggy door  
Earth girls, earth girls are easy, earth girls, love how  
they tease me  
Earth girls, earth girls are (easy)  
I can't go on.  
What happened next is just too personal to put in a pop  
song.  
If it's that bad, you have to.  
Promise you won't tell?  
Uh huh  
His touch was a love drug, I had to have more, the next  
thing I knew I had opened the  
door

Come in space monkey kiss me here, kiss me there,  
he's still disgusting but I didn't  
care  
Give us more details  
Oh how do I describe it.  
Well you know how a blender has 12 speeds?  
Well when he got up to puree I thought I would die.  
But when he put it on liquefy, I wanted his baby.  
Ohhhhh. Oh yes, yes.  
Is that your tongue.  
One of them  
That sure is a big piece of machinery you've got  
I made it myself  
Oh you space stud, you  
There's no ride like this at Disneyland, baby.  
Oh synchronize, synchronize, I'm docking Ohhhhhh.  
And to think we did all that without even touching.  
Slow:  
Now I'm back to my senses and he's light years  
away, if he's listening in space I have  
something to say  
I took the lock off the doggie door, so come back moon  
doggie when you're ready for  
more  
Earth girls, earth girls are easy, earth girls, know how  
to please me  
Earth girls, earth girls are (sleazey)  
Earth girls, earth girls are easy, earth girls, love how  
they tease me  
Earth girls, earth girls are (easy)  
Earth girls, earth girls are easy, earth girls, love how  
they tease me  
Earth girls, earth girls are (very easy)  
Earth girls, earth girls are easy, earth girls, know how  
to please me  
Earth girls, earth girls are (easy)
