When you're blue, when you're down
When the world makes you drown
Come to me, come to me
And together we'll run away
When the wind is blowing hard
And you don't know where to hang on
Hang on to me, hang on to me
And together we'll drift away
Away, away

Oh, you said what goes around comes around
And if you stay you might lose your mind
But if you leave again this time I'll... Die

When the sky makes you cry (When the sky makes you
cry)
When you don't know where to hang on (When you
don't know where to hang on)
(Hang on to me) Come to me (Hang on to me)
And together we'll drift away (Come to me)
Away, away, away

Oh, you said what goes around comes around
And if I stay you might lose your mind
But if you leave me again this time I'll die
Die

Come to me, come to me
And together we'll drown to other sea
(And together we'll drown to other sea)
And together we'll drown to other sea
(And together we'll drown to other sea)
Away, away...
Come to me, come to me
And together we'll drown to other sea
