This place is giving me
Nothing at all
That's why is time for me to leave now
This city is full of sunshine
But it is so damn cold
I want to leave now, I want to leave now, I want to leave
now

This place is giving me
Oh nothing at all
That's why is fine for me
To leave now

This city is full of sunshine
But it is so damn cold
I want to leave now
Leave now
Leave now

I wanna go to a place more earthy
I wanna smell the moss
And feel the dirt around me
I wanna play this guitar so loud
So I don't have to listen to their lies, their lies

Oh ho give me these little pills you've told me about
So I could see covers arising
Ooooh let me become something else
Be a tree or a weed or a flower maybe

Oh the tree or the dream
That't I will never wake up

I don't see the point in love no more
It never works out
It hurts too much
Lover don't be angry
'Cause you feel the faith in me
And you understand already
Sweet parents I'll miss you too
But I'll see you soon

This place is taking over a part of me
I'll find happiness in somewhere deeper
No regrets
Or cigarettes
'Cause I'm ready
Ready to go
Ready
Oh ready to go
Ready

It's so quiet here
It feels so right
I wanna stay here for a minotory eternity
