As your leader, I encourage you from time to time
And always in respectful manner to question my logic.
If you're unconvinced that bah-jigitty plan of action,
I've decided, is the wisest then tell me so.
But allow me to convince you and I promise you right
here and now
No subject will ever be taboo.
Except of course the subject that was just under
discussion.

The prize you pay for bringing up either my Chinese or
American
Heritage as a negative, is, I collect your fucking head!
Just like this fucker right here.
Now, if any of you, son of bitches got anything else to
say
Now is the fucking time!!!
I didn't think so...
