Her search for life has just begun

Marching on the devils own  
Marching on towards the moonlight throne  
Driven by her morbid lust  
Seeks for pleasure in virgin blood

She's the evil one - for centuries she's lived alone  
With vicious eyes - she casts the spells of black  
The queen of the night - a beautiful beast that seduces  
all the shattered minds

She craves your soul - from the depths of your inner  
void  
Mistress of death - in the hall of the moonlight throne  
Queen of the night - from the land of the twilight gate  
the ruins of future she holds

The bringer of centuries of pain  
With a venomous desire  
See the bringer of everlasting pain  
She the goddess of the flames  
She glows, she feeds

She speaks inside my mind - awakes my dark desires  
Angel of sin - controls my inner fire  
Am I the one - to give her the strength to survive one  
more furious night

Embraced by darkness  
Embraced by she who claims my

Life - I'll find no shelter  
Drown - in eyes so black as night  
Night - I feel her anger  
Why - am I a chosen one  
One - I'll find no shelter  
Drown - in eyes so black as night  
Night - I feel her anger  
Why - am I a chosen one

Trapped in a darkened place - I can hear the endless

moans  
A cold embrace - An erotic sense of pain  
Am I the one - to give her the strength to survive one  
more furious night

Dead stars guides my way (I burn I flames)  
Enslaved by her eyes  
Life fades away (I die in fire)  
Dead stars above, on dead ground I walk

I resist the fire  
I resist desire  
I resist the pain  
I will die with you, I

Embraced by darkness  
Embraced by she who claim my

Life - I'll find no shelter  
Drown - in eyes so black as night  
Night - I feel her anger  
Why - am I a chosen one  
One- I'll find no shelter  
Drown - in eyes so black as night  
Night - I feel her anger  
Why - am I a chosen one  
One - there will be no sorrow  
Die - I'll slowly fade away  
Away - won't see tomorrow  
Die - I'll slowly fade away
