On silent waters, I travel through the night  
A silent warning, the dawn of no sun

A shadow guides my way  
Through the dying landscape  
Through the shades of gray  
I crave the light

Gods in rage  
Darkness will rise  
The eternal dies  
On the throne of life

In the temple of the dead  
On the mount of sorrow  
I've seen the fate of life  
I've heard the cries from the pit of fear

By the altar of death  
A man stands alone  
Raising his arms to the sky  
Sorrow calls  
From the mountain of skulls  
From the castle of pain  
The altar of death shines again

Tears - tears of rage, tears of sadness  
Fear - fear of death, fear of life

I stand on the edge of the world (absorbing the last of light)  
I stand in the cold (from where shadows are born)  
Dark clouds now covers the sun (eternity fades away)  
As faith turns to stone (now enter the dark)

Enter the cold, enter the dark  
Enter the cold, enter the dark

Still an army stands against the hordes of night  
On wings of fury they ride  
As demons rise from their dark domains  
A rain of fire falls from the sky

Like tears of rage, tears of sadness  
Fear - fear of death, fear of life  
Hear - hear the cries, hear the mourning  
Behold the souls of death, of emptiness

By the altar of death  
A man stands alone  
Raising his arms to the sky  
Sorrow calls  
From the mountain of skulls  
From the castle of pain  
The altar of death shines again
