Magic is the moonlight  
On this lovers' June night  
As I see the moonlight  
Shining in your eyes

Can't resist their power  
In this moonlit hour  
Love begging to flower  
This is paradise  
Living in the splendor  
Of your kiss so tender  
Make my heart surrender  
To your love divine

Magic is the moonlight  
More than any June night  
Magic is the moonlight  
For it made you mine

Magic is the moonlight  
More than any June night  
Magic is the moonlight  
For it made you mine  
For it made you mine  
For it made you mine
