"The Speed Of Light"

Visit "[The Speed Of Light](#)" on MotoLyrics.com

Time and space are relative
Einstein said back when he lived
The only thing that doesn't change
Makes everything else rearrange

Is the speed of light
Is the speed of light
Your love for me must be the speed of light

The man on the moon
Said the earth was blue
But you don't have to leave
To know that's true

The only thing that doesn't change
Makes everything else rearrange
Is the speed of light
Is the speed of light
Your love for me must be the speed of light
