Baby, I see you're trying to figure out
What this enigma they call love is all about
Oh no, I'm no expert on the subject
That's for sure

But I'd love to study up
Maybe baby, we should buddy up
'Cause I'd love to study up with you

It's about time, it's about talkin'
It's about holding hands and walkin'
Up the street and down the beach
Takin' this as far as our hearts can reach

And dreamin' dreams just as big as we can
And did I mention holdin' hands?
Well yes, I did in the second line
How 'bout puttin' yours in mine

It's about time
It's about time

Baby, I hope that I'm not being too forward
Ain't gonna mention any of those forevermore words
Oh, but ain't we had a couple close calls on the
telephone
Late at night

It's about more of those
Lettin' go and connectin' souls
And gettin' real close to you

It's about time, it's about talkin'
It's about holding hands and walkin'
Up the street and down the beach
Takin' this as far as our hearts can reach

And dreamin' dreams just as big as we can
And did I mention holdin' hands?
Well yes, I did in the second line
How 'bout puttin' yours in mine

It's about time

It's about time, it's about talkin'
It's about holding hands and walkin'
Up the street and down the beach
Takin' this as far as our hearts can reach

And dreamin' dreams just as big as we can
And did I mention holdin' hands?
Well yes, I did in the second line
How 'bout puttin' yours in mine

It's about time
It's about time
It's about time
