I know if I just keep my distance, you will see what you  
are missing  
And you'll learn, no one can love you like I do  
I've look involved in conversation, but I'm strugglin'  
with temptation  
So tonight as you walk into the room

What I want, is to hold you  
'Cause my world without you is just other lonely place  
to be  
And what I need is to hold out until you have no doubt  
There's only one love for you and it's me  
So I'll be strong till you can believe what I need

My impression of what love is comes and goes like your  
kisses  
It's clear as day when I hold you in my arms  
Though I'll admit that you're my weakness  
I'm gonna fight these feelings  
Until you can promise me your heart

What I want, is to hold you  
'Cause my world without you is just other lonely place  
to be  
And what I need is to hold out until you have no doubt  
There's only one love for you and it's me  
So I'll be strong till you can believe what I need

And what I need is to hold out, until you have no doubt  
There's only one love for you and it's me  
So I'll be strong till you can believe what I need  
What I need
