I met you just tonight
But I keep wondering why
It seem's I've always knwon
You all my life...

I held you only once
But I keep wondering why
It seem I've held you forever

Can it be true
Could I be wrong
That somewhere in my past
I fell in love with you
Can it be true
Could I be wrong
That somewhere in my past
There was also me and you

I've kissed you only once
But I keep wondering why
It seem's I've kissed your lips
So many times

I know you only now
But I've keep wonderin' why
It seem I've known you forever...

I loved you only now...
But I keep wondrin why
It seem I've loved you forever...
Somewhere there was you and I
Somewhere...
