If I can't find a way, will I find a way to be with you, ah
If I can't see the sky through the dark clouds, will we
make it through, ah

If I can't find a way, can I find a way to be here with
you, ah
Just like coastal waves in the dark sea, hope we'll make
it through, ah
There is nothing to see here
Just need you to steer clear
Of the wreckage and burning tears

Can't see the difference
In color's cadence
The world's a virtue
Can't turn against you
The world's a virtue
Can't turn against you

And someone took from me the thing inside that sees
the truth, the truth
Plastic runways and (?) that hold the proof, the proof

And nothing fades away, it stays strong if we stay true,
true
And I can't hide the face from the bright eyes that see
me in you, you
There is nothing to see here
Just need you to steer clear
Of the wreckage and burning tears

Can't see the difference
In color's cadence
The world's a virtue
Can't turn against you
The world's a virtue
Can't turn against you

In color's cadence
Can't see the difference
The world's a virtue

Can't turn against you

Will turn against you,
