When we come together
The universe is ours
Dancing 'round the planets
As we sing and strum guitars

Gotta make time for it
Find that state of mind
Let's try it on, and see what fits
Who knows what we will find?

Ooh, ooh, we're having so much fun
Ooh, ooh, ooh, So get in on the action
Ooh, ooh, the world is wide open
For you and me to see to it (Ooh, ooh, la la la la la...)
That we know the great great world is wide open
Ooh, it's a great great world

No one cramps your style
When you know you're free
To be an explorer
Of every possibility

Let's go on a journey
Find that state of mind
Let's try it on, and see what fits
Who knows what we will find?

Ooh, ooh, we're having so much fun
Ooh, ooh, ooh, So get in on the action
Ooh, ooh, the world is wide open
For you and me to see to it (Ooh, ooh, la la la la la...)
That we know the great great world is wide open
Oh...

Ooh, ooh, la la la la la
Ooh, ooh, ooh, la la la la la la
Ooh, ooh, la la la la la la
Ba ba da, ba ba da, etc.
