"Steal My Secret"

In a dream I touched you
I feel as if you knew
Though it's a thing I shouldn't do

You live dangerously
The waves that rock the sea
A quiet force the beckons me

Now I madly pirouette
To your hypnotic duet
In the moonlight I dare your silhouette
Steal my secret

Now I madly pirouette
To your hypnotic duet
In the moonlight I beg your silhouette
Steal my secret

Oh take it, no regret
Steal my secret

In a dream you touched me
My darkest fantasy
I've tried to hide it desperately
Face to face in darkness
Respond to your caress
Abandon my last S.O.S
