Bones will ache
Hearts will break
When living takes it toll
Tears will fall
Still all is well with my soul
Storms will come
Hide the sun
And leave us numb with cold
Rains will fall
Still all is well with my soul

Chorus
All is well that ends well
And in the end I'll be with You I know
All is well that ends well
And so...all is well with my soul

Eyes will see
Tragedies
And mysteries unfold
Nights will fall
Still all is well with my soul

Repeat Chorus
