Hidden in you
Is all the pain
Your redemption, it just slowly fade away
And I know you put on your laughter
It dresses you up to face your master
And in the end
There's nothing left of you
And in the end
You've fallen deeper than you knew
Slowly fade away and find out
This down right tragedy
No one loves you no one cares at all
How can they mmmmm
Still losing themselves
Oh oh oh oh
Oh oh

Further it goes when a stranger wakes
To liquid hate drink up and drown away
And to sooth the repercussions of a better life
Wrap up those little demons
Cause they make you think you feel alright
Before it all your pain
Before it all you'd never see the brighter days
Slowly fade away
And found out this down right tragedy

No one loves you no one cares at all
How can they mmmmm
Still losing themselves
Give it up get off your knees
Beggars can't be choosers
When approvals the rivalry
Give it up get of your knees
Beggars can't be choosers
When approval is the rivalry

Slowly fade away
And find out this down right tragedy
No one loves you no one cares at all
How can they
Still losing themselves

How can they mmmmm
Still losing themselves
Oh oh
Oh oh
Hidden in you
Is all the pain
