1st Verse: If life was a movie and love was a song
you'd be Gene Kelly and I'd be in love. Our roles
would consist of Paramount lines, like "I love you
forever" and "always be mine."

Chorus: We would be happy singing in the rain, and our
love story is classic in everyway. Perfect couple in a an
Old Movie.

2nd Verse: If moves were a dance hand in hand we
would be, tapping sporadically throughout the streets.
And I'd sing you a song the way Judy does in a picture
of parades and Ferris wheels we'd go round.
Chorus: " "

Bridge: In our black and white lives out love would
never die. And one day see that colored sky. It all starts
with a roar and ends in your eyes. In our black and
white lives our love would never die.

Chorus: We would be happy singing in the rain, and our
love story is classic in everyway. Perfect couple...
