Familiar, the sounds of familiar  
you tell me I'm a drama queen  
you act like you don't care  
you looked right past me  
like I was a ghost,  
someone you don't even know.

I don't know why I still love you  
when all you do is make me cry,

Cry, cry baby  
I don't know why  
I think you gonna save me  
you just stand and watch my tears hit the floor  
like it doesn't even matter anymore  
I don't really want to leave tonight  
but I don't want to be your cry baby

Lonely, I can take being lonely  
I've kinda gotten use to it  
you treat me like you don't know me  
well maybe you never did  
they say there's nothin' to it  
oh, someone's gotta do it

so I'm tellin' you goodbye  
and all you make me do is cry,

Cry, cry baby  
I don't know why  
I think you gonna save me  
you just stand and watch my tears hit the floor  
like it doesn't even matter anymore  
I don't really want to leave tonight  
but I don't wanna be your cry baby

I don't really want to leave tonight  
and it rips me apart inside  
but I'm not gonna be your cry-- baby  
No I'm not gonna be your cry, cry baby

You just stand and watch my tears hit the floor  
like it doesn't even matter anymore  
I don't really wanna leave tonight  
but i don't want to be your cry baby
