Just another girl with a broken heart
Another dream that never saw the Light of day

I painted on a brave face for a while
Never gonna fall again
No how no way

Took my truth cold
Right with the bitter
Under Control
Yeah I'm gonna figure
Just like love

Change your plans
Just like love
Take it out of your hand

How else can I explain
The two of us
Cause it's not like me to think I deserve this much
Well it's just like love

Just another boy who made me laugh
Just another boy that's What I say
Then I saw you walk across that frozen lake
Circling around my heart until it melted

They say God smiles
You think you got it figured out
But He alone designed something bigger
Just like love

Change your plans
Just like love
Can take it out of your hands

How else can I explain
The two of us
Cause it's not like me to think I deserve this much
Well it's just like love

They say _____
You think you got it figured out
But me _____
Design something bigger
Just like love

To change your plans
Just like love
To take it out of your hands

How else can you explain
The two of us

Cause it's not like me to think I deserve this much
but it's just like love

yeah it's just like love
just like love
yeah
