I wake up with the sun on my face
On the edge of the bed, babe you're taking up all the
space
I roll you over then I give you a kiss
Meet you in the middle
That's where all the fun is

Chorus:

Life as we know it
It's going good
That's an understatement
It's going better than I ever thought it could
Never been so happy, so content
Oh, I wish i could freeze this moment
Life as we know it... now

You're doing dishes if I'm cooking the meal
We got an understanding, and it's a pretty good deal
We read our books at each end of the couch
No conversation needed
To stay in touch in this house

Chorus:

Life as we know it
It's going good
That's an understatement
It's going better than I ever thought it could
Never been so happy, so content
Oh, I wish i could freeze this moment
Life as we know it... now

I whisper... I love you
You tell me... you love me too
It's so easy, so simple
I wonder why we didn't think of this before

Chorus:

Life as we know it
It's going good
That's an understatement
It's going better than I ever thought it could
Never been so happy, so content

Oh, I wish i could freeze this moment
Life as we know it... now

Oh, I wish i could freeze this moment
Right... now
