How
How did it get to this
I'm stumbling around with my heart in haze
Planning my days
Around phone calls I don't wanna miss

Where
Where was the girl from back then
The one who concocted the dos and the don'ts
The I wills and I won'ts
If I ever meet someone again

Oh I'd _____ now
Yeah I had it all figured out

Never compromise
Never settle for
At the first sign of trouble
Be the first out the door

Take my sweet time
And not lose my mind
And not fall apart
With a touch
Then I'll fall in love

Sleep
Sleep's just that thing you do
When you're all alone
Til _____ in
Somebody's there for you to tell all your dreams to

Fool
Maybe I'll wind up a fool
But something tells me that's it's not very wise
To let this pass by
To be Miss collected and cool

All of my friends ____ agree
Yeah I constantly preach

Never compromise
Never settle for
At the first sign of trouble
Be the first out the door

Take my sweet time
And not lose my mind
And not fall apart
With a touch
But then I fell in love
But then I fell in love

Tune
I'm thinkin' it'll change my tune
And I was gone as it gets
But I won't be back anytime soon

Yeah

Never compromise
Never settle for
At the first sign of trouble
Be the first out the door

Take my sweet time
And not lose my mind
And not fall apart
With a touch
then I fell in love
then I fell in love

Never compromise
Never settle for

Take my sweet time
Not lose my mind
