Juliette Lewis-Noche Sin Fin

My endless night was so black  
So damn blind I couldn't fight  
Oh no God I woke up alone  
I'd never take it back no

Every night I see  
Every night I see  
All the ghosts staring at me  
You can never get it back  
Cause you never let the devil know your under attack  
no

And you wonder why you failed everyone  
Why your youth is gone  
All are wasted  
All I took all I took I could take  
I... I went away but I couldn't escape no

And it's all the way gone  
All the way gone  
Every night I'm singing the same, same ol song  
Oh how you took me down  
How I lost it all  
Loved by everyone and no one at all  
You suffered the cons  
And served the well  
You served the loss  
And this is my hell

Oh no let me hold you down  
Let me hold your head all the way down  
Down Down Down Down Down  
Keep it up  
Keep it up  
Never get up

Love and be killed by the love you will be  
Oh you set me free  
I was put away  
By the law

And you I heard you say no  
Oh what's up boys you'll be ok  
Don't cry oh sweet ones may you never die

Starving on the streets  
A spoon and a bowl  
All my love  
All your love  
I took I took  
All... all your love I took I took  
How I took it down  
I took myself out  
I took it I'll never again no

You will never die  
You will never die  
I, I, I, I, I, I  
I will never die  
You will never die  
Never die  
Oh oh oh lord  
Took it one time never again no

And it's all  
All the way down  
All the way down  
How you took me  
How you loved me  
How you set it free  
All the way down  
All the way down  
Everything you give to  
Oh the black night  
Oh the black night  
I fight my way free

Oh we go on and on  
We keep going on  
And on  
And on  
And on...
