I know you've tried to say, that

It's the last time I can see it in your eyes
I can feel it when I'm holding you and you're as cold as
ice
It's the last time, I can taste it in your kiss, I can hear it
In the silence and we both know what it is, it's the last
time

There's nothing I can say, I haven't said before
If I've made mistakes along the way, I can't have loved
you more
There's no side of me I'm hiding, no new way to make
you care
I've tried everything I can and still the feeling isn't
there

And it's the last time and I can't believe it's true
If I had a chance with anyone, I swear my chance was
you
It's the last time and I'm angry and I'm scared and I
don't know
What I'll do when I wake up and you're not there, it's the
last time

It's the last time, I just can't believe that you don't need
me
The last time, I just can't believe that you would leave
me
The last time, I'll be such a lonely man, believe me, the
last time

The last time, now I'll have to spend my nights without
you
The last time, now I'll have to fight my dreams about
you
The last time, I would change your mind if I knew how
to
But it's the last time
