Got a little, got a little, got a little, got a little  
Got a little secret, don't think I can keep it  
If I let you know, promise you wont go  
Haven't got me feet wet, I don't have no regrets  
Cuz I saved it all for you  
If we can play a little longer  
Til we feel it stronger  
It will be much better, All about the pleasure  
You aint never rushed me, but each time you touch me  
Here's what I want you to do

Take me by the ha-and  
Baby understand that  
I need you to make it good for me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out  
Move a little closer, kiss me on my shoulder  
Want you just as bad as you want me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out

And now we right up on the weekend  
I'm so sick of creepin  
Aint nobody home, we can be alone  
Somethin bout yo mouthpiece, everytime your mouth  
speaks  
I do what you want me to  
So tonight you be my teacher, help me do my research  
Follow when you leave, I just wanna be  
One that makes you happy, baby don't ask me  
Tell me what you wanna do

Take me by the ha-and  
Baby understand that  
I need you to make it good for me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out  
Move a little closer, kiss me on my shoulder  
Want you just as bad as you want me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out

And I wanna leave this party, leave this party  
With you, you  
And all the ladies and the fellas get jealous cuz how we  
do(oh)do  
Where the rest just dressin fresh just out of the crew,  
crew  
Imma tell my girls they can ride out now cuz I'm leavin  
with you  
But you gotta walk me out

You put them diamonds on my necklace  
You been gettin reckless  
If we take it slow, you aint gotta go  
I can cook you breakfast  
Top it with a french kiss  
Aren't you so beautiful  
We can lay back(put your arm around my shoulder)  
Watchin movies(then well get a little closer)  
All I wanna do is, make sure that you'll be here  
If I give it all to you

Take me by the ha-and  
Baby understand that  
I need you to make it good for me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out  
Move a little closer, kiss me on my shoulder  
Want you just as bad as you want me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out

Take me by the ha-and  
Baby understand that  
I need you to make it good for me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out  
Move a little closer, kiss me on my shoulder  
Want you just as bad as you want me  
Imma let you walk me, walk me, walk me out  
Walk me, walk me, walk me out
