"Lovelines"

Visit "[Lovelines](#)" on MotoLyrics.com

Darling, you got me fallin'
Cause you're the only one who ever does it right
Every night I'm dreamin'
about the feelin'
You know I can't explain what's goin' down
My head keeps spinnin' round

You're on my lovelines
And that's all right me
(That's all I need)
Just give me good times
The way that love should be
Baby, you're the warm glow
that helps me through the day
(keeps me smiling)
And darlin' I know I'll always feel this way
Cause Lovelines never fade
Lovelines don't fade my love

Baby, come on and take me
into that wonderland where only lovers go
Heaven knows I need you
I wanna feel you
I've got that strange sensation deep inside
That only you can satisfy

You're on my lovelines
(You're on my lovelines)
And that's all right me
(That's all I need)
Just give me good times
(Just give me good times)
The way that love should be
Baby, you're the warm glow
(You are the warm glow)
that helps me through the day
(Keeps me smiling)
And darlin' I know
(And darlin' I know)
I'll always feel this way

So give me lovin' like I've never known before
Make me cry out loud for more
(My love)

You, you, you are on my lovelines
(You're on my lovelines)
And that's all right me
(That's all I need)
Just give me good times
(Just give me good times)
The way that love should be
Baby, you're the warm glow
(You are the warm glow)
that helps me through the day
(Keeps me smiling)
And darlin' I know
(And darlin' I know)
I'll always feel this way

Cause you're right on my lovelines
and that's all right with me
(That's all I need)
Just give me good times
(Just give me good times)
the way that love should be
baby you're the warm glow
(you are the warm glow)
that helps me through the day
(Keeps me smiling)
and darlin' I know
I'll always feel this way
cause you are on my lovelines
and that's all right with me
That's all I need baby
just give me good times
the way that love should be
Holding me tight
every night....
