I see through the walls
it's only the figures
speaking in tongues
and keeping me here
now behind the sky
I was buried in white
peeled me away
as close to heaven as your town is far from here.
From my room to hers
removing the language
from my wounds to hers
to bleed is to heal
she says she is empty
soon we'll refill
she says "can you save me"
I thought tonight I will

Capture the wind
before the world takes over again
this brilliant light I've known
this brilliant light she's shown (shone)

Now I'm reaching out before
other signals blurring hers
now I'm reaching for a sign
other signals blurring mine

Savor every breath inside
crimson wrapped in New Year's sky
as moonlit ivory skin becomes
a shield for the days
as signals fade

Now I'm reaching out before
other signals blurring hers
now I'm reaching for a sign
other signals bleeding mine

Now I'm reaching for the days
when other signals fade away..

Signals fade

signals fade
