

July For Kings "Six Hour Drive"

Visit "[Six Hour Drive](#)" on MotoLyrics.com

Said youve been thinking about Memphis
I know you don't like Catfish
But we can learn about Elvis
Sit back and see the 9s roll over
200,000 miles to show for
This old car, this guitar, and this new summer

Cmon Cmon
We'll make a six hour drive
Through Tennessee
I don't believe
The car survived
Did it understand
My master plan
To have you next to me
If only temporarily
No work or place to be
Just one last, six hour drive

We left about 3 oclock friday
Started getting colder as the night came
Along the appalation highway
Started raining with the windows stuck down
Sit back and laugh until the next town
Your eyes look nice against the greener ground

Cmon Cmon
We'll make a six hour drive
Through Tennessee
I don't believe
The car survived
Did it understand
My master plan
To have you next to me
If only temporarily
No work or place to be
Just one last, six hour drive
