It's about friends
It's about school
It's about changes
The ones you never thought
They'd put you through

It's times like these
That I got a touch of Irish in me, yeah
And we can talk honesty
But honestly, I'm okay this way, yeah

Hey, you just don't understand
Sometimes my sky's a little gray
And I know eventually
I'll be feeling alright again, yeah

Life's been a friend to me, yeah
Don't need to convince me
It's a beautiful world
I know, it's a beautiful world

It's about faith
It's about heart
It's about progress
The things that try to tear
The world apart

My mind has to speak
'Cause I feel what I feel much too deep
But if it motivates me to
Do something good then I'm okay this way, yeah

Hey, you just don't understand
Sometimes my sky's a little gray
And I know eventually
I'll be feeling alright again, yeah

Life's been a friend to me
Don't need to convince me
It's a beautiful world
I know, it's a beautiful world

Sunshine beating down on my life
Maybe that's a long time away
But I guess, I'll take it day by day

You ask when I'll get my smile back
Well, I'll tell you, I can smile now though I know, I'm
down
And if you stay around it might just happen

Hey, you just don't understand a thing
Sometimes my sky's a little gray
And I know eventually
I'll be feeling alright again, yeah

It's about you
It's about me, yeah
It's about trust
And all the things we feel
We'll never see

I feel so much
Sometimes I'm a little out of touch
You can talk honesty
But honestly, I'm okay this way

Hey, you just don't understand
Sometimes my sky's a little gray
And I know eventually
I'll be feeling alright again, yeah, yeah

Life's been a friend to me
Don't need to convince me
It's a beautiful world
I know, it's a beautiful world

Hey, it's a beautiful world
Sometimes my sky's a little gray

Life's been a friend to me
Don't need to convince me
It's a beautiful world
I know, it's a beautiful world
