When I look in your eyes
I see a whole different sky
Like I've never seen before

And when I hear your voice
It's like a song that I can
Listen to oh, over again

It's so crazy
How you make me go crazy
Everytime that I'm near you

'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream, just a dream

When I picture the world
It takes me to the sun
I think about the way you smile

And the words that you say
Always seem to change
The world that I've been livin' in

It's so crazy
How you make me go crazy
Everytime that I'm near you

'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream, just a dream

You're just a dream, just a dream
More than my imagination could ever see

You're just a dream
If I could be with you

You're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you

'Cause you're just a dream
This is my reality, totally insanity
If I could be in your dream
All I wanna do is be with you, be with you
You're just a dream, oh oh, you're just a dream, just a
dream
