Oh ya, oh ya

[Verse 1:]

Pick up my dreams
That need a jump start
Given all I can
I crash and for what
You stick up for me when I fall hard
Take down all my fear
Juggle my thoughts around in my head
So I won't break down around each bend
With my foot on the pedal I'll race ahead
Drive this life with me

[Pre-chorus 1:]

I am I am aware
I hear that You are near

[Chorus:]

You are
You are in my heart
You are
You are in my heart
When every little thing is falling apart
You're beating in my heart
You're beating in my heart

[Verse 2:]

When the clock strikes night and I'm in the dark
You'll be here and there you are
When the lines get cut and I feel far
Reaching out to me
When I feel like a freak
The words you say tell me to believe that I'm OK
When I don't make sense cause I'm this way
You see the best in me

[Pre-chorus 2:]

I am I am aware
I hear that You are near

[Chorus:]

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You're beating in my heart

[Bridge:]

There's a love I can be

There's a buzz around You and me

You're the sum of all I need

I count the number of things You do for me

You are (oh ya)

[Chorus:]

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You are

You are in my heart

You are

You are in my heart

When every little thing is falling apart

You're beating in my heart

You're beating in my heart

You're beating in my heart

You are...
