Jump, Little Children
"Mind You Head"

You wanna be in the headline
Your name in black and white
You wanna go for the big time
Canâ€™t shake the feelin'
You wanna walk in the limelight
And take the world by storm
You wanna reach for the high life
And be the new thing

I've told you from the start
There's nothin' wrong with what you've said
But deep inside my heart
I wanna tell you

Mind your head
Get out of bed
Don't realize
Your own demise
You gotta redefine
Your state of mind
So take as read
The Word has said
You gotta mind your head

You wanna be with the best of
And Hollywood in name
Somebody nobody heard of
Who made the big time
You wanna see what you can do
When runnin' side-by-side
You wanna know will you get through
And make the headline

But if you want to learn
Then everything will be all right
Take on what's in the Word
Don't let it leave you

Mind your head
Get out of bed
Don't realize

Your own demise
You gotta redefine
Your state of mind
So take as read
The Word has said
You gotta mind your head
Get out of bed
Don't realize
Your own demise
You gotta redefine
Your state of mind
So take as read
The Word has said
You gotta mind your head

You gotta mind your head

I tried to tell you how it is
But you still disagree
When will you ever see
How faithfulness should be
Mind your head, realize

Be in the headline
Go for the bigtime
Walk in the limelight
[repeat]

Mind your head
Get out of bed
Don't realize
Your own demise
You gotta redefine
Your state of mind
So take as read
The Word has said
You gotta mind your head

Be in the headline
Go for the big time
Walk in the limelight

You gotta redefine
(Be in the headline)
Your state of mind
(Go for the big time)
So take as read
(Walk in the limelight)
The Word has said
You gotta mind your head

You gotta mind, you gotta mind
You gotta mind your head...
