Never, never ending  
Constant motion, constancy  
Forever complicated,

Always overkill, yeah  
Never, never for me  
Never silent, never for me  
Always overkill  
Never, never for me

Open to possibilities  
however unlikely  
Nothing quite convincing  
As a moment of peace  
Never, never for me

Always overkill, yeah  
Never, never for me

Always overkill  
Passing nature, calming faces  
Ever patient, relaxed and floating  
Falling heavens are lost in orbit  
Celestial bodies are wondering, silent

Never, never for me

Never, never for me  
Always overkill  
Always overkill, yeah  
Nothing quite convincing  
As a moment of peace
