[Lesley, Brittany]

Fly-y, fly-y,
Fly-y, fly-y, fly

[Chris]

It's like I woke up and my day belongs
And nothing goes right hall of fame
It's like a simple song and
I can't seem to get it straight

[Lesley]

But I'm in the world premier
And I just can't get through the lines
And everything I touch goes wrong,
No matter what I try

[All]

Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
'Cause it's my time to fly
And I know they cannot hold me down
Fly-y, fly-y,
'Cause they cannot hold me down,
Fly-y, fly-y, fly-y

[Brandon]

Some times are crazy in the world
It's ever weirder than it sounds
The world is my missed time
Things are easier I've found

[Lesley]

All the world's stage
I've just got the starring role
The mountain mass in front of me

Seems like a little stone

[All]

Fly away above the clouds up in the sky
Oh why, oh why

So I don't worry 'bout the little things in life
Cause it's my time to fly tonight

[Lesley]

I know sometimes it's hard to walk
When being knocked around

[Brittany]

But circumstances, state of mind
Don't live life on the ground

[All]

I just want to
Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
Cause it's my time to fly tonight

[Chris]

It's my time, my time to fly

[All]

Fly away above the clouds up in the sky
Oh why, oh why
So I don't worry 'bout the little things in life
Cause it's my time to fly tonight and
I know they cannot hold me down
Fly-y, fly-y,
'Cause they cannot hold me down,
Fly-y, fly-y, fly-y
