

Jump5 "Spinnin' Around"

Visit "[Spinnin' Around](#)" on MotoLyrics.com

You keep me spinnin' around
'Round, 'round, 'round, 'round, 'round, 'round, 'round

I was thinkin' 'bout yesterday, I was thinkin' 'bout our
tomorrow
In a dizzy kinda sorta way, like vertigo
I've been trying not to figure out but it's driving me
crazy
Well, you'd think I'd know by now

A is last, Z is first
Living life in reverse
'Cause that's the way it works

Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around, spinnin' around

What we're doing doesn't have a sequel, don't wanna
lose your balance
Oh, you know you gotta keep your equilibrium
Goin' backwards to go forward, all these definite
maybe's
It's like running around in circles

Make it last, take it slow
Just forget what you know
'Cause that's the way it goes

Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around, spinnin' around

Every now and then I feel your peacefulness surround
me
Then once again it all goes up and down
And over under 'round and around

Go, go, go, jump, jump, go, go, go, J5
Spinnin' around, oh, yeah, yeah

Upside down, oh, yeah, yeah, J5 in the house, hey
Jump, jump, jump, jump, jump, jump

Turnin' turnin' upside down, down
'Cause you're spinnin', spinnin', spinnin me around,
'round
Go, jump, go, jump, go, jump, go, jump
Spinnin' around, that's the way it works

Take it slow and not so fast, fast
Z is first and A is last, last
Up and down, all around, hey, hey
Turnin' my whole world upside down

Ooh, yeah, it's not the take, it's the give
Yes, that's the way, okay, the way it is

Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around

Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around
